

CRIME SCENE UNIT SUPERVISOR

JOB DESCRIPTION

Classification Responsibilities: A Crime Scene Unit Supervisor has direct supervision over a squad of Crime Scene Specialists and Senior Crime Scene Specialists involved in the examination and investigation of all types of crime scene and accident investigations in support of law enforcement activities. A Crime Scene Unit Supervisor works in the field monitoring subordinates' work, participating in the processing of crime scenes, coordinating the investigation of crime scenes with sworn supervisors in the field, and ensuring that tasks are performed in accordance with standard operating procedures, regulations, and accreditation standards. An incumbent in this class also performs the following duties: reviewing technical reports, creating and maintaining work schedules, completing thorough documentation of subordinates' work performance as well as completing performance evaluations; and completing payroll and other administrative functions. An additional responsibility is training the Crime Scene Specialists and other department personnel in the forensic disciplines and functions of the Forensic Services. A Crime Scene Unit Supervisor is also required to perform the duties of a Crime Scene Specialist which includes: photographing all types of crime and accident scenes to record the appearance of evidence using highly-skilled photographic and evidence-gathering techniques; identifying, collecting, and securing physical evidence such as blood, body fluids, hair and fibers, and firearms for laboratory testing and use as evidence in criminal prosecutions; searching for and developing latent prints at crime scenes; photographing and fingerprinting suspects, investigate leads, victims (including deceased individuals), and witnesses; producing castings and comparative photographs of footprints, tire tracks, and other impressions; developing electronic composite drawings of suspects; and testifying in court. The use of chemicals in the field may be necessary in order to perform certain tasks. A major aspect of the duties includes writing detailed reports with proper grammar and punctuation, as well as establishing and maintaining records to ensure proper chain of custody of physical evidence. Duties may include other special assignments. This class is responsible for performing related duties as required.

Distinguishing Features: The Crime Scene Unit Supervisor is a civilian classification assigned to Forensic Services in the Police Department. Work requires the exercise of initiative and independent judgment in implementing established work methods and procedures. Supervision is received from a Forensic Services Supervisor or Forensic Scientist Supervisor who reviews work through reports, meetings, observation of work in progress, and overall results achieved. An incumbent in this position must be able to complete detailed tasks with minimal errors and supervision. Good verbal and written communication skills are important. The work requires exposure to dangerous chemicals and evidence that may be biohazardous and carcinogenic. Incumbents in this class may be required to use a respirator when these elements may be present. A Crime Scene Unit Supervisor requires shift work, working weekends and holidays, and is subject to emergency call-out. This class is FLSA nonexempt.

QUALIFICATIONS

Minimum Qualifications Required. Graduation from an accredited college or university with a Bachelor's Degree with a grade point average of 2.0 (out of a possible 4.0) or better. At least two years of experience as a Crime Scene Specialist (or equivalent). Coursework or previous training in Photography and Criminalistics.

Special Requirements. Must possess a valid Arizona Driver's License by hire date. Because of the confidential, sensitive nature of work required, successful completion of a polygraph and background investigation is required. Must meet the qualifications to wear a tight fitting respirator by passing a medical evaluation in accordance with CFR 1910.134 by hire or promotion date and must maintain certification. Candidates given a conditional job offer will be required to successfully complete a psychological evaluation and medical examination.

Substance Abuse Testing. Due to the safety and/or security sensitive nature of this classification, individuals shall be subject to pre-employment or pre-placement alcohol, drug and/or controlled substance testing as outlined in City policy and procedures.

Preferred/Desirable Qualifications. Courses in Physical Science (Biology/Biochemistry, Chemistry, or Forensic Science) is highly desirable. Preference will be given to applicants with a Bachelor of Science Degree from an accredited college/university in Biology/Biochemistry, Chemistry, or Forensic Science. Supervisory experience is preferred. International Association for Identification certification in Forensic Photography, Crime Scene Investigator, Crime Scene Analyst, Senior Crime Scene Analyst and/or Latent Print Examiner is also preferred.
