Vice Mayor Freeman stated that resident Elizabeth Kemmer submitted a speaker card in opposition, but did not wish to address the Council.

Donald Douglas, a Mesa resident, expressed his opposition to the development due to the impact to the traffic flow. He noted that the main entrance to the development is through the parking lot of the LA Fitness, which is already congested during rush hour and could increase the chances of accidents. He also expressed his concerns regarding property values. He suggested an alternative route along the canal to ease the traffic flow and allow for quick access to the 202.

Melissa McCormick, a Mesa resident, addressed concerns related to the multi-residence development. She stated that the problem is no available entrance to the LA Fitness and that drivers must drive north on Power Road to get to the freeway. She added that she is concerned with the number of U-turns this will cause in the area. She added that LA Fitness hours causes congestion and adding additional vehicles will add to the overcrowding.

Krysta Hampton, a Mesa resident, spoke about the safety of Power Road from McDowell to Hermosa Vista. She stated that she used to walk Power Road but due to the increase in traffic and speeding, she can no longer take those walks. She stated that since LA Fitness has been in the community, the number of U-turns has increased.

Josh DeMitt, a Mesa resident, reported that the neighborhood has seen an increase in noise and traffic accidents. He noted that he has also seen an increase in trash at the bus stop. He commented that the new development has too many negative aspects (i.e., property values, etc.) and suggested that installing a traffic light and extending the road would help the congestion in the area.

Reese Anderson, an attorney with Pew and Lake and representing Continental Properties, displayed a PowerPoint presentation (**See Attachment 1**). He advised that the property is RM-3 residential multi-family and was approved in 2005 as a zoned RM-3. He stated that the reason for the change is to modify the landscape buffer by the canal area. He reported that there are no other deviations to the development standards for a typical RM-3 project. He noted that there have been two neighborhood meetings in September and October of 2018. He stated that he received feedback from the community and additional changes were made to minimize height, increase landscaping and setback along the southern boundary.

Mr. Anderson illustrated a map of the LA Fitness, which is next to the main entrance of the property. He said the entrance through the business area at the front of the property is by design, which has existed since 2005.

Mr. Anderson briefly highlighted the 2012 traffic volume as well as the traffic volume grades of the area, which graded B's and C's in the intersection. He reported that traffic volume comparison between 2012 to 2040 has been consistent but that there's been a slight increase in the east and west, which could be due to the level of service and not the development of the project.

Mr. Anderson displayed a traffic comparison chart of various land use and noted that the traffic changes are measured by the number of trips and not by the volume of vehicles.

In response to a question from Councilmember Luna, Planning Director Nana Appiah reported that the Planning and Zoning Commission reviewed the case on March 20th and voted unanimously for approval.

In response to a question from Councilmember Luna, Traffic Engineer Sabine Ellis provided a short synopsis of the traffic concern surrounding the development.

Discussion ensued with regards to continuing discussion with the residents, conducting mitigation efforts, and the possibility of installing a signal light.

Responding to a question from Councilmember Duff, Ms. Ellis responded that traffic counts are done every other year.

It was moved by Councilmember Luna, seconded by Councilmember Duff, that Resolution No. 5506 be approved.

Upon tabulation of votes, it showed:

AYES – Freeman-Duff-Heredia-Luna-Whittaker

NAYS – None

ABSENT – Giles-Thompson

Vice Mayor Freeman declared the motion carried unanimously by those present and Resolution 5506 was adopted.

9. Conduct a public hearing on the following annexation cases:

9-a. Conduct a public hearing for the release of the petition for signatures for annexation case ANX18-00502, located north of Ray Road, east of Power Road (69.3± acres). Initiated by VIVO Partners, LLC. **(District 6)**

9-b. Conduct a public hearing for the release of the petition for signatures for annexation case ANX19-00066, located north of University Drive and west of Ellsworth Road (13.07± acres). Initiated by Sean Lake, Pew and Lake, PLC. **(District 5)**

There were no comments from the public.

10. Items from citizens present.

Verl Farnsworth, a Mesa resident, spoke on the importance of telling the truth. He stated that he has been speaking at the meetings for the past 16 months and nothing has been corrected. He added that he fears there is a culture present that is casting a cloud over the expected transparency and open operation of the City. He noted that the City belongs to the citizens not elected officials or to staff. He said that he applauds the Mayor on his affirmation of extreme transparency and he is testing that statement now as he made a request for information two weeks ago that should have been easy to transmit.

Heather Neese commented on procedures and program administration issues in the police department.

11. Adjournment.

Without objection, the Regular Council Meeting adjourned at 6:47 p.m.

JOHN GILES, MAYOR
