Subject: City of Mesa electric service

- In the City of Mesa there are 2 systems of paying for electric services.
- One used by City of Mesa, the customer pays a deposit ~ \$300 and gets the bill at the end of the month.
- The second system is used by SRP where they purchase the M- Power box for \$99 and the customer pays as they use.
- The City of Mesa system makes it impossible to rent apartments in bad economic times! Furthermore, the typical customer leaves the apartment, avoiding payment of the City electric bill and moves to an apartment served by SRP. (M- Power program).
- We already had several letters with the city regarding this matter and will appreciate a fast resolution.

Sincerely,

Ruth Margalit, Owner
