ALARI™ LED Wall Sconce

LED, 50W OR 77W - UP TO 5,200 LUMENS

Project: _____

Fixture Type: _____

Location: _____

Contact/Phone: _____

Cat. No: _____

PRODUCT DESCRIPTION

The Alari LED Wall Sconce is a wall mounted performance luminaire that provides a graceful transition from the parking lot to the building. The sweeping curves and elegant lines create a daytime appeal not normally found in a luminaire of this type. The high performance optics complete the Alari package, providing even illumination and exceptional fixture spacing. The Alari LED Wall Sconce is available with a robust LED engine that delivers up to 5,000 lumens and it can be ordered with an optional integral emergency battery system.

PRODUCT SPECIFICATIONS

Optics Custom designed, high performance molded TIR (Total Internal Reflection) optics shape the LED light with a wide throw or a forward throw distribution • The wide and forward throw distributions are performance oriented to extract the maximum light out of the LEDs and deliver it exactly where needed • A stainless steel polished to mirror finish reflector projects light out of the fixture, maximizing fixture performance • A tempered glass lens completely seals the optical system.

"Dark Sky" Friendly Meets Dark Sky ordinance requirements.

Tool-Less Access Snap action door latch reduces installation time. No tools are required for access to the driver or wiring compartment.

Construction Die cast aluminum housing • Stainless steel external hardware • Hinged door • Tempered glass lens mechanically attached with lens clips to facilitate lens replacement • Silicone rubber gaskets completely seal the unit • Rubber grommet for wiring entry keeps insects and dust out of the fixture • J-Box mounting bracket includes level for a straight fixture installation • Stainless steel polished to mirror finish reflector.

Thermal Management LED boards are mounted to an aluminum heat sink that is directly attached to the external housing, transferring the LED heat to the outside of the fixture through the housing surface.

"Easy-Install" Mounting Mounts to a standard 3 1/2" or 4" junction box • Using the built-in level, align the bracket and secure it • Hang the luminaire and secure with heavy duty set screws

Finish Polyester powder coat finish with a six stage application process • Bronze, black, white or silver are standard • Designer finishes available upon request (provide RAL number).

Emergency Lighting Option An optional integral battery pack can be provided for emergency lighting during a power outage • Emergency battery pack is internal to the fixture so there is no need for any external battery installation • Choose between EM option (0° to 40°C, 32° to 104°F ambient) and EX option (-20° to 40°C, -4° to 104°F ambient).

0-10V Dimming Option An optional 0-10V dimming driver (D option) is fully compatible with Schneider Electric C-Bus networks

Certification Fixture meets UL1598 and CSA C22.2-250 standards • Suitable for wet location applications • Full fixture IP65 rating • Compliant with Dark Sky ordinances • Union made • Driver meets UL879, UL1310 Class 2, cUL, FCC CE (EN55 015, EN61347) • Driver is RoHS compliant • Assembled in the USA • Meets "Buy American Act" and ARRA • 5 year limited warranty.

SIGN LIGHTER

12V MR16 Straight Arm

INDOOR/OUTDOOR

S313M

Project: _____

Fixture Type: _____

Location: _____

Contact/Phone: _____

PRODUCT DESCRIPTION

Versatile low voltage sign lighter that is adjustable to fit most sign lighting applications. Each complete Sign Lighter Kit includes: 18" fixture, 12" extension, 6" extension, transformer, mounting hardware and instructions.

Sealed assembly for indoor or outdoor use • Easy to assemble, modular extensions • Dimmable • Max 75W, MR16 lamp (not included) • Will accept one lens accessory • 75W electronic transformer with thermal and short circuit protection • Available in black or bronze powder painted finishes.

Canopy Diameter: 6-1/2"

PRODUCT SPECIFICATIONS

LOW VOLTAGE MR16 SIGNLIGHTER

Electrical

Lamp: 12V, MR16 Lamp (not included)

Lamp Holder: 2-Pin GU5.3 Base, 12V Halogen lamp socket

Transformer: 75W, 120V 60Hz

Mechanical

All Aluminum Construction

Tubular Construction: 1" Diameter inter-connected tubes, Kit includes lengths of 18"/24"/30"/36"

Lamp Housing and Tube Support: Available in Black or Bronze powder coated finish

Adjustability: 180° vertical aiming and 360° horizontal rotation

Weather Resistant: "O"-Ring weather resistant seals

Mounting: Wall mounting on surface or over J-box

Agency Approval

ETL Listed for wet applications

PRODUCT DESCRIPTION

Dedicated LED, Air-Loc® sealed new construction housing with integral light engine • Can be completely covered with insulation • Fully sealed housing stops infiltration and exfiltration of air, reducing heating and air cooling costs without the use of additional gaskets • LED housing is designed to provide 50,000 hours of life and is compatible with many standard Juno trims • 5 year warranty.

ENVIRONMENTALLY FRIENDLY, ENERGY EFFICIENT

- No harmful ultraviolet or infrared wavelengths
- No lead or mercury
- Comparable light output to 65W BR30 incandescent while consuming less than 14W*

PRODUCT SPECIFICATIONS

LED Light Engine Cast aluminum heat sink integrated directly with housing provides superior thermal management to ensure the long life of the LED • Replaceable light engine mounts directly to heat sink and incorporates the latest generation, high lumen output LED array • LEDs are binned to standards that exceed Energy Star requirements yielding superior fixture to fixture color uniformity • 2700K, 3000K, 3500K, or 4100K color temperatures available • 85 CRI typical.

Optical System Computer-optimized internal reflector with high reflective white finish coupled with a high transmission diffusing lens conceals the LEDs and produces uniform aperture luminance.

Aesthetic Trim Selections Low profile scoop wall wash trim • Shadow free, knife edge design blends seamlessly into ceiling.

LED Driver Universal voltage driver accommodates input voltages from 120 to 277 volts AC at 50/60Hz • Power factor > 0.9 at 120V input • Driver has integral protection • Driver is dimmable with the use of most 120V electronic low voltage wall box dimmers • Optional 120 volt only driver available and is dimmable with the use of most incandescent, magnetic low voltage and electronic low voltage dimmers • For a list of compatible dimmers see [JUNOLEDG2-DIM](#) • Mounted between the j-box and housing for easy access and cool operation.

Life Rated for 50,000 hours at 70% lumen maintenance.

Labels UL listed for through-branch wiring, damp locations • Union made, UL and cUL.

Testing All reports are based on published industry procedures; field performance may differ from laboratory performance.

Product specifications subject to change without notice.

HOUSING FEATURES

Housing Designed for use in IC (insulated ceiling) or non-IC construction • Aluminum housing sealed for Air-Loc® compliance • Housing is vertically adjustable to accommodate up to a 1" ceiling thickness.

Junction Box Pre-wired junction box provided with (5) 1/2" knockouts, (4) knockouts for 12/2 or 14/2 NM cable and ground wire • UL listed and cUL listed for through-branch wiring, maximum 8 #12 @120V, 4 #12 @ 277V branch circuit conductors • Junction box provided with removable access plates • Knockouts equipped with pryout slots • Push-in electrical connectors supplied as standard for fast, secure installation.

Mounting Frame 22-gauge die-formed galvanized steel mounting frame • Rough-in section (junction box, mounting frame, housing and bar hangers) fully assembled for ease of installation.

Real Nail 3 Bar Hangers Telescoping Real Nail 3® system permits quick placement of housing anywhere within 24" O.C. joists or suspended ceilings • Includes removable nail for repositioning of fixture in wood joist construction • Integral T-bar notch and clip for suspended ceilings • Design covered under Patents US5,505,419 and D552,969.

* Nominal input wattage @ 120-volt operation.

LED SOFFIT LIGHT (XSL2)

DOE LIGHTING FACTS

Department of Energy has verified representative product test data and results in accordance with its Lighting Facts Program. Visit www.lightingfacts.com for specific catalog strings.

US patents D574994 & D595896 & 7828456 and US & Int'l. patents pending

EXPECTED LIFE - Minimum 60,000 hours to 100,000 hours depending upon the ambient temperature of the installation location. See LSI web site for specific guidance.

LEDS - Select high-brightness LEDs. Cool White 5000K color temperature, 69 CRI.

DRIVER CURRENT - Super saver (SS) - most economical and highest lumens per watt or High Output (HO) - highest output per initial dollar.

DISTRIBUTION/PERFORMANCE - Type S (Symmetric) or 5A (Type 5). Excellent uniformity with Bug rating of BU-UO-G1. Optional diffused lens available to reduce visibility of diodes

HOUSING/OPTICAL UNIT - Housing is die-formed aluminum with a gasketed clear tempered glass lens providing a water-resistant seal. Weather-tight aluminum enclosure contains factory prewired driver to ensure no water entry. Sealed optical unit containing LEDs rated IP67.

MOUNTING - Direct mounts with screws through the trim frame (standard). Optional channel bar kit available to suspend assembly from ceiling joists. 12" clearance required for ease of installation.

ELECTRICAL - Universal frequency power supply (50/60 Hz). Supply voltage must be specified for pre-wired thermal protectors.

DRIVER - State-of-the-art driver technology designed specifically for LSI LED light sources provides unsurpassed system efficiency. Driver will operate with input of 120/208/240/277V (50/60 Hz). Components are fully encased in potting material for moisture resistance. Driver complies with IEC and FCC standards.

OPERATING TEMPERATURE - -40°C to +50°C (-40°F to +122°F).

FINISH - Each fixture is finished with LSI's DuraGrip® polyester powder coat finishing process. The DuraGrip finish withstands extreme weather changes without cracking or peeling, and is guaranteed for five full years. Standard color is white.

WARRANTY - LSI LED fixtures carry a limited 5-year warranty.

PHOTOMETRICS - Please visit our web site at www.lsi-industries.com for detailed photometric data.

LISTING - Listed to U.S. and Canadian safety standards. Suitable for damp locations. For a list of the specific products in this series that are DLC listed, please consult the LED Lighting section of our website or the Design Lights website at www.designlights.org.

The Brightest Idea is Emergency Lighting with LEDs

GENERAL DESCRIPTION

With spacing up to 55 ft in 9 ft ceilings, this recessed down light for lighting retrofit has only a 4" trim, and is our most efficient emergency luminaire. Very effective in long corridors, it is inconspicuous and will blend with general lighting fixtures without affecting the appearance of ceiling layouts.

CONSTRUCTION

- 4" Trim ring installation with standard can and Back plate.
- Three versions available:
 BB=Unit equipment with self-contained battery
 RE=Remote for connection to 24 VDC Central Battery System
 AC=Remote for connection to AC 120/277 emergency supply.

ELECTRONICS

- Lamps are connected in parallel. If one lamp fails, one or more lamps will continue in operation.
- Universal 120/277 VAC input for standard battery or AC unit, or 24 VDC input for remote configuration.
- Power supply delivers regulated current and voltage to LED lamps at optimum levels to maximize lamp life.
- Automatic battery diagnostics available for all battery models.

ENERGY EFFICIENT OPERATION

- Emergency lighting with optional dual function operation for night or security lighting.
- Very low power consumption in optional night/ security mode. The security lighting circuit is independent of emergency lighting and may be switched manually, by an exterior photocell, or other automatic means.
- Over 50,000 hour lamp life in normal use.
- IES photometric data available for all models.

CODES

- Manufactured and tested to UL Standard 924 and NFPA Life Safety Code 101.

WARRANTY

- 5 year total customer satisfaction warranty. For details see product catalog technical data section.

Moonlite LED™ Emergency & Security Light For Lighting Retrofit

Recessed LED Down Light Series MRD

MRD.01.15.06

SUGGESTED SPECIFICATIONS:

Install MOONLITE™ Series MRD Recessed LED downlight emergency lighting fixture manufactured by Signtex Inc., available as unit equipment or as a remote device connected to a Central Battery power source. Upon loss of AC building power, emergency models shall operate for a minimum of 90 minutes in compliance with UL 924 and NFPA LSC Code 101. The unit may be specified to operate continuously for security or night lighting, as required.

CITIZEN PARTICIPATION REPORT

QuikTrip #431R – NEC Mesa Drive & Baseline Road

Date: July 3, 2017

Purpose: The purpose of this Citizen Participation Report is to inform staff of progress made on the previously submitted Citizen Participation Plan.

Contact:

Charles Huellmantel
Huellmantel & Affiliates
P.O. Box 1833
Tempe, Arizona 85280

Action Plan (Completion Update): In order to provide effective citizen participation in conjunction with this application, the following actions will be taken to provide opportunities to understand and address any potential questions or concerns our neighbors may have:

1. A contact list will be developed for property owners in the area including all property owners within 500' of the site. Because no residential neighborhood are located within a ¼ mile of the subject site, we will not be notifying any registered neighborhood/homeowner associations.

Update: List provided July 3, 2017.

2. A notification letter will be sent to all property owners within 500' of the subject site consistent with the sample notification letter provided in the Planning & Zoning Board application packet.

Update: Letter provided to City on July 3, 2017.

3. The site will be posted no later than two weeks prior to the Planning & Zoning Board meeting.

Update: We have arranged with Dynamite Signs to have the site posted with the proper signage by the end of July 2017.

4. We will discuss the case with any interested party who contacts us regarding our requests, and offer to meet upon request.

Update: We have not received any contacts at this point, but this item is ongoing.

5. Details of correspondence and telephone calls received will be included in our Citizen Participation Report.

Update: We have not received any contacts at this point, but this item is ongoing.

Schedule:

- Pre-application Meeting – March 6, 2017
- Application Submittal – May 25, 2017
- Neighborhood Notification Letters Delivered To City – July 3, 2017
- Submittal of Citizen Participation Report & Notification Materials – August 3, 2017
- Planning & Zoning Board Hearing – August 16, 2017

HUELLMANTEL AFFILIATES

July 3, 2017

Dear Neighbor,

This letter is to inform you that we have applied for approval of a site plan to allow a new QuikTrip store at the northeast corner of Mesa Drive and Baseline Road (APN: 139-49-027A). The proposed location is currently a large vacant lot, and QuikTrip will be occupying a portion of the lot. We are requesting approval of our site plan as well as a Special Use Permit to allow a fueling station as well as an Administrative Use Permit to allow additional parking beyond the Zoning Ordinance requirement. We have enclosed a copy of the site plan, landscape plan and elevations for your review.

Our request will be heard by the Planning & Zoning Board as follows:

Meeting Date: August 16, 2017
Time: 4:00 p.m.
Location: Lower Level City Council Chambers – 57 E. 1st Street

If you have any questions or would like to discuss our proposed project, please feel free to give me a call at (480) 921-2800 or contact me via e-mail at charles@huellmantel.com.

For additional information concerning the design of the proposed development or the Design Review process – including to verify the hearing date, please contact the Mesa Planning Division at 55 North Center, or call the Mesa Planning Division Office at 480-644-2385.

Sincerely,

Charles Huellmantel
