These rates are applicable only during the months of April through September to all single dwelling units (see definition in R1.2 rate schedule) where the residential R1.2, R1.21, R1.23, and R1.28, and **R1.29** service customer has declared, in advance of the period of absence, that the dwelling unit will be unoccupied for NO LESS than a three-month consecutive period for the billing of utilities for the billing cycles ended on or after ~~August 28, 2008~~ **August 30, 2010** for usage occurring on and subsequent to the date on which those same billing cycles started.

MONTHLY BILLING CYCLE

- Rate R1.6: 50% of the Residential Solid Waste Service R1.2 when the single dwelling unit is unoccupied.
- Rate R1.61: 50% of the Residential Solid Waste Service R1.21 when the single dwelling unit is unoccupied.
- Rate R1.63: 50% of the Residential Solid Waste Service R1.23 when the single dwelling unit is unoccupied.
- Rate R1.68: 50% of the Residential Solid Waste Service R1.28 when the single dwelling unit is unoccupied.
- Rate **R1.69**: 50% of the Residential Solid Waste Service **R1.29** when the single dwelling unit is unoccupied.

A portion of the above rates will be used to fund waste reduction programs.

ADJUSTMENTS

This rate will be subject to revocation and the customer billed the difference between this rate and solid waste Schedule No. R1.2, R1.21, R1.23, ~~and/or~~ R1.28 and/or **R1.29** back to the customer declared departure date if the customer is found in non-compliance by occupying the dwelling unit during the customer declared absence.

Taxes and Impositions. The applicable proportionate share of any taxes or governmental impositions, which are assessed on the basis of the gross revenues of the City and/or the price or revenue from the utility services, sold hereunder shall be added to each utility bill.

TERMS AND CONDITIONS

See Terms and Conditions for the Sale of Utilities.

CONTAINERIZED RESIDENTIAL SOLID WASTE SERVICE – BINS

APPLICATION

These rates are applicable to all multi-unit dwellings greater than 20 units who are served by metal City solid waste bins for the billing of utilities for the billing cycles ended on or after ~~August 28, 2008~~ August 30, 2010 for usage occurring on and subsequent to the date on which those same billing cycles started. Collection of these bins is provided in geographical zones. An additional charge is assessed for customers requesting collection on non-zone days. For billing purposes, the following definitions are applicable:

Dwelling Unit: One (1) or more habitable rooms forming an independent living area which may contain sleeping, sanitary, and cooking facilities. The term shall include an apartment but shall not include a hotel room or suite, guest rooms in boarding houses, or accessory living quarters.

Multiple Dwelling Unit: Two or more dwelling units located on the same lot or parcel that are not individually deeded or cannot be purchased or sold separately.

MONTHLY BILLING CYCLE

Base Rate: Refer to tables attached hereto, which shall be a part of this rate schedule.

A portion of these rates will be used to fund waste reduction programs.

Other Charges:

1. Bins requiring special moving or handling to service may be charged a monthly fee based on \$2.95 per number of collections per week per bin.
2. Customers requesting relocation of bins within same service site will be assessed a service fee of \$35.02 for transportation costs and \$5.51 per each bin relocated.
3. Customers sharing a container bin shall be charged a prorated share of the base rate in proportion to their respective solid waste volume.
4. Any customer requiring casters on 2, 3, and 4 yard bins will be charged \$7.46 per month per bin for solid waste bins requiring casters as well as a one time charge of \$18.80 to install the casters. Any customer requiring casters on 6 and 8 yard bins will be charged a one time charge of \$18.80 to install the casters and a charge of \$18.80 per month per bin.
5. When a locking device is installed at the request of a customer, a one-time charge of \$60.64 shall be made. The customer shall provide the lock.
6. Temporary bins can be rented upon request provided that the period of rental is less than 181 days. See table No. 1 for pricing.

The bin must be serviced a minimum of once every 14 days. No construction or demolition debris shall be placed into bins, however, temporary roll off containers are suitable for this type of debris. If the rental period is more than 180 days, use Table 2.1 to calculate charges.

A special pickup request that requires an additional stop at the location will be assessed the disposal charge. Charges shall be made as follows:

Table No. 1 - Temporary Solid Waste Bin Rental and
Extra/Special Pick-up Charges

Bin Size	Delivery Charge*	Each Disposal**
2 yd.	\$40.14	\$32.76
3 yd.	\$40.14	\$38.22
4 yd.	\$40.14	\$43.68
6 yd.	\$40.14	\$49.14
8 yd.	\$40.14	\$54.60
Front Load Compactor***		
2 yd - 4 yd		\$49.14
6 yd		\$98.28

*For the first bin and \$20.07 for each additional bin up to 4. \$40.14 for the fifth bin and \$20.07 for each additional bin up to 8.

**If a customer requests more than one bin to be emptied and/or the same bin to be emptied multiple times during a special pickup, each dump after the first bin emptied will be half the disposal fee for the bin size.

***The City does not own any front load compactors. However, once a customer purchases or leases a unit from a compactor company, the Solid Waste Management Department is capable of hauling the unit.

Temporary rental of roll-off containers is also available. For charges, see Table No. 3 under R3.5.

7. Customers requesting that a bin be exchanged or cleaned more than once every six months shall be charged \$52.50 per bin each time a bin is cleaned. Customers requesting that roll-offs or compactors be cleaned more than once a year shall be charged a fee of \$105.00 per roll-off or compactor, each time it is cleaned. The City maintains the right to charge a customer to clean bins due to unsanitary conditions.

8. Recycling Containers – Customers with cardboard bins will be charged a monthly base rate of \$20.00 for once per week collection. Rates for multiple bins and/or bins serviced twice per week shall be calculated using Table 2.1. Newspaper and Office Paper are also collected for customers and the applicable base rate per ton shall depend on the market prices at the time of collection, as follows:

COMMODITY	MARKET PRICE	BASE RATES
Newspaper	\$0- 19.99 Per Ton	\$20
	\$20-49.99 Per Ton	\$10
	Over \$50 Per Ton	\$0
Office Paper	\$0- 19.99 Per Ton	\$20
	\$20-49.99 Per Ton	\$10
	Over \$50 Per Ton	\$0

Recycle Bin Special pick-ups shall be assessed a \$25.00 fee per bin for pick-up on a scheduled recycle day for that commodity. Recycle bins picked up on days other than scheduled recycle days shall be assessed the disposal charge for that size of bin according to Table No. 1.

BULK ITEM COLLECTION PROGRAM

A bulk item collection program is available for an additional fee. See bulk item and appliance recycling collection program information page. [Solid Waste Schedule R3.91]

APPLIANCE RECYCLING COLLECTION PROGRAM

An appliance recycling program is available for an additional fee. See bulk item and appliance recycling collection program information page. [Solid Waste Schedule R3.91]

SHARE SITUATIONS

If more than one customer is to use the same bin, one bill from the City to the main user is preferred.

ZONES

The Deputy City Manager or designee shall establish geographic zones and days of collection.

ADJUSTMENTS

Taxes and Impositions. The applicable proportionate share of any taxes or governmental impositions, which are assessed on the basis of the gross revenues of the City and/or the price or revenue from the utility services, sold hereunder shall be added to each utility bill.

TERMS AND CONDITIONS

See Terms and Conditions for the sale of Utilities.

The Deputy City Manager or designee is authorized to establish and charge reasonable fees for the collection of bulk items (such as brush, appliances and lumber) and environmental compliance fees (such as refrigerant recovery), and any other fee not falling under rate application.

TABLE NO. 2.1

Base Rates:	Front Load Compactor Base Rates:
2 CY - \$71.00	2 CY - \$109.00
3 CY - \$78.00	3 CY - \$129.00
4 CY - \$85.00	4 CY - \$149.00
6 CY - \$94.00	5 CY - \$152.00 \$157.00
8 CY - \$105.96	6 CY - \$161.00 \$166.00

To determine the monthly collection rate, the number of bins factor is multiplied by the sum of the zone/non-zone factors (product rounded to the nearest hundredth) times the applicable base rate.

The above rate schedule is calculated based on customers having the same size bin and pickup days. If there are special circumstances, which require varying different size bins and pickups days, these rates will be calculated under R3.9 rate type.

Solid waste bin/compactor rates are calculated based on an average weight of 75 pounds per bin yard for loose material. If a customer is disposing of material that exceeds the average weight, the City reserves the right to assess a higher rate under R3.9 rate type. See table 2.2 to calculate ~~overweight~~ **additional weight** charges.

Blended rates may be calculated for customers that receive two or more different services per week. This occurs when a customer has bins of different sizes or when all bins are not serviced on the same days. The service which has the highest weekly bin yards shall be the base service. Blending may reduce a customer's monthly billing, by application of the multiple bin factor to any secondary service. To qualify for blended rates, secondary service bins must be serviced at the primary service site on the same day(s) as the base service.

Once the weight per bin-yards has been determined, multiply the base rate by the base rate multiplier for the new base rate. Then use the new base rate as you would have used the old base rate. After this has been calculated, add the hauling cost adjustment by multiplying the number of yards per stop pick-up by the appropriate yards per stop pick-up multiplier in the table above corresponding to the weight per bin-yard and the desired number of pick-ups per week.

	7	\$0.00	\$25.99	\$51.99	\$77.98	\$103.97	\$155.96

- 1) Find the applicable weight charge per yard in the table by cross-referencing the weight range and the number of service days per week.
- 2) Multiply the appropriate weight charge per yard by the number of yards per pickup to determine the monthly additional weight charge.

CONTAINERIZED COMMERCIAL SOLID WASTE SERVICE - BINS

APPLICATION

This rate is applicable to all commercial customers who are served by metal City Solid Waste bins for the billing of utilities for the billing cycles ended on or after ~~August 28, 2008~~ **August 30, 2010** for usage occurring on and subsequent to the date on which those same billing cycles started. Collection of these bins is provided in zones. An additional charge is assessed for customers requesting collection on non-zone days.

MONTHLY BILLING CYCLE

Base Rate: Refer to tables attached hereto, which shall be a part of this rate schedule.

A portion of the base rates will be used to fund waste reduction programs.

Other Charges:

1. Bins requiring special moving or handling to service may be charged a monthly fee of \$2.95 per number of collections per week per bin.
2. Customers requesting relocation of bins within same service site will be assessed a service fee of \$35.02 for transportation costs and \$5.51 per each bin relocated.
3. Customers sharing a bin shall be charged a prorated share of the base rate in proportion to their respective solid waste volume.
4. Any customer requiring casters on 2, 3, and 4 yard bins will be charged \$7.46 per month per bin for Solid waste bins requiring casters as well as a one time charge of \$18.80 to install the casters. Base Rates:	Front Load Compactor Base Rates:
2 CY - \$71.00	2 CY - \$109.00
3 CY - \$78.00	3 CY - \$129.00
4 CY - \$85.00	4 CY - \$149.00
6 CY - \$94.00	5 CY - \$152.00 \$157.00
8 CY - \$105.96	6 CY - \$161.00 \$166.00

To determine the monthly collection rate, the number of bins factor is multiplied by the sum of the zone/non-zone factors (product rounded to the nearest hundredth) times the applicable base rate.

The above rate schedule is calculated based on customers having the same size bin and pickup days. If there are special circumstances, which require varying different size bins and pickups days, these rates will be calculated under R3.9 rate type.

Solid waste bin/compactor rates are calculated based on an average weight of 75 pounds per bin yard for loose material. If a customer is disposing of material that exceeds the average weight, the City reserves the right to assess a higher rate under R3.9 rate type. See table 2.2 to calculate ~~overweight~~ additional weight charges.

Blended rates may be calculated for customers that receive two or more different services per week. This occurs when a customer has bins of different sizes or when all bins are not serviced on the same days. The service which has the highest weekly bin yards shall be the base service. Blending may reduce a customer's monthly billing, by application of the multiple bin factor to any secondary service. To qualify for blended rates, secondary service bins must be serviced at the primary service site on the same day(s) as the base service.

Once the weight per bin yards has been determined, multiply the base rate by the base rate multiplier for the new base rate. Then multiply by the bin factor and zoning factor sum. After this has been calculated, add the hauling cost adjustment by multiplying the number of yards per pick-up by the appropriate yards per pick-up multiplier in the table above corresponding to the weight per bin yard and the desired number of stops per week.
