Rezone from Planned Employment Park with Planned Area Development overlay and Council Use Permit (PEP-PAD-CUP) to Multiple Residence 5 with a Planned Area Development overlay (RM-5-PAD) and Site Plan Review. This request will allow for a multiple residence development. Charles Huellmantel, Huellmantel & Affiliates, applicant; VHS Acquisition Subsidiary Number 11, INC., owner.)**, Assistant Planning Director Rachel Nettles stated when the referenced case originally appeared before the Planning and Zoning Board it did not comply with the General Plan. She noted due to the recent General Plan text amendments, the case is now in compliance with the secondary zoning districts.

Ms. Nettles stated staff is recommending denial based on the density of the zoning proposed. She explained the applicant is proposing a Multiple Residence 5 (RM-5) Zoning and requesting

several deviations through a Planned Area Development. She added that the applicant is requesting a 21% parking reduction, reduced setbacks, and an increased building height from 50 feet to 60 feet. She remarked that staff does not support the parking reduction as there is limited off-site parking in the surrounding area. She stated the development does not connect to A.T. Still University as is necessary in that specialty district.

Mayor Giles noted he would invite the applicant to present his case in the Regular Council meeting following this Study Session.
