This project includes installation of a new pump, piping, and electrical equipment at the new Desert Well No. 7 located approximately 600 feet east of the existing well location within Mariposa Park.

Staff recommend awarding a contract to Felix Construction, in the amount of \$4,513,041, and authorizing a change order allowance in the amount of \$451,304.10 (10%), for a total authorized amount of \$4,964,345.10. This project is funded by Water Utility Systems Revenue Obligations.

*4-c. Three-Year Term Contract with Two-Year Renewal Options for Hostile Vehicle Mitigation Barriers for the Mesa Police Department. **(Citywide)**

The Police Department's primary responsibility during special event planning is to ensure public safety with particular emphasis on traffic management and the prevention

and response to disturbances or acts of violence such as vehicle-based attacks. Acquiring specialized safety barriers will help reduce or potentially eliminate the need to rely on school buses, police vehicles, and cumbersome concrete blocks, which are difficult to position and relocate. The Police Department currently has \$450,000 budgeted to complete the initial purchase. The Department is actively working to secure additional funding to allow for the acquisition of more barriers during the initial contract year and in subsequent years.

A committee representing the Transportation and Mesa Police Departments and Procurement Services evaluated responses and recommend awarding the contract to the highest scored proposals from Advanced Security Technologies and Meridian Rapid Defense at \$1,000,000 annually, with an annual increase allowance of up to 5%, or the adjusted Consumer Price Index.

Items not on the Consent Agenda

- *5-a. Approving the purchase of real property and improvements and an air rights parcel owned by the Maricopa County Community College District located at 145 and 165 North Centennial Way and authorizing the City Manager to enter into the documents necessary for the purchase. The purchase of the properties are intended to help address City employee staffing needs for offices (145 North Centennial) and a potential future redevelopment site (165 North Centennial) in downtown Mesa. **(District 4)** – Resolution No. 12422

David Winstanley, a Mesa resident, spoke in opposition to the proposed property purchase. He noted that the City currently owns two vacant buildings on First Street that could be utilized and suggested that increased use of teleworking could reduce the need for additional space. He recommended that the Council postpone the expenditure until a clearer need is established.

City Manager Scott Butler clarified that of the two buildings to be purchased, one will be demolished due to repair costs exceeding its value, which has been factored into the purchase price. He explained that the second building is needed immediately and that staff have begun preparations to move City employees into the facility once plans are finalized. He added that this building will offer a longer-term solution and improved working conditions for employees, eliminating the need for additional short-term repairs to the 55 North Center building.

Mayor Freeman explained that this is a unique situation, as the City already owns the parking garage at the site, which is used by both employees and the public, while the surrounding buildings are owned by Mesa Community College. He noted that the college is selling the buildings due to maintenance challenges and stated that purchasing them is a sound investment for the City, allowing better integration with the existing City-owned parking facility.

Councilmember Duff stated that the building at 165 North Centennial, which is in poor condition and slated for demolition, will be positioned for sale on the open market to attract new economic development opportunities and the second building will be used for staff operations. She added that over time, the City will continue to realign staff locations, repurpose outdated facilities, and free up other properties that could contribute to economic growth in the area.

Councilmember Adams commented on the area of honor and remembrance located south of the building, established by the Veterans Center, and stated that staff assured him that if the memorial cannot remain in place, its key elements will be preserved and relocated.

It was moved by Councilmember Spilsbury, seconded by Councilmember Heredia, that Resolution No. 12422 be adopted.

Upon tabulation of votes, it showed:

AYES – Freeman–Somers–Adams–Duff–Heredia–Spilsbury
NAYS – None
ABSENT– Goforth

Mayor Freeman declared the motion carried unanimously by those present.

7. Items from citizens present.

Captain John Birks, Salvation Army Mesa Corps officer, highlighted the organization's ongoing programs, including daily food assistance serving 100 to 150 individuals with the demand increasing by about 50% per day, and a senior lunch program for residents 55 and older. He shared plans to repurpose another building for youth programs focused on character development, music, and a future after-school program. He expressed his gratitude to the City and reaffirmed his commitment to supporting the Mesa community through the Salvation Army's services.

Jillian Ryan, unknown address, introduced herself as being from Indivisible Mesa and raised concerns regarding inconsistencies and perceived unfairness in the public comment process. She noted that staff are not adequately informing attendees of procedural changes such as requiring the use of a QR code system instead of the traditional blue comment cards. She criticized the Council's lack of responsiveness and expressed frustration over what she viewed as attempts to silence constituents.

Joanne Frazier, a Mesa resident, spoke in opposition to the 287(g) Cooperation Agreement with the U.S. Immigration and Customs Enforcement (ICE) and urged the Council to cancel the agreement.

8. Adjournment.

Without objection, the Regular Council Meeting adjourned at 6:09 p.m.
