

COUNCIL MINUTES

September 22, 2025

The City Council of the City of Mesa met in the Council Chambers at City Hall, 20 East Main Street, on September 22, 2025, at 6:25 p.m.

COUNCIL PRESENT COUNCIL ABSENT OFFICERS PRESENT

Mark Freeman Scott Somers Rich Adams Jennifer Duff Alicia Goforth Francisco Heredia Julie Spilsbury None

Scott Butler Holly Moseley Jim Smith

Mayor's Welcome.

Mayor Freeman conducted a roll call.

Mayor Freeman led a moment of silence, followed by the Pledge of Allegiance.

Mayor Freeman provided an overview of the public comment guidelines.

Awards, recognitions, or announcements.

Mayor Freeman stated that the Domestic Violence Awareness Month Proclamation would be continued to a future date.

Items on the agenda were discussed out of order, but for purposes of clarity will remain as listed on the agenda.

1. Take action on all consent agenda items.

All items listed with an asterisk (*) will be considered as a group by the City Council and will be enacted with one motion. There will be no separate discussion of these items unless a Councilmember or citizen requests, in which event the item will be removed from the consent agenda and considered as a separate item. If a citizen wants an item removed from the consent agenda, a blue card must be completed and given to the City Clerk prior to the Council's vote on the consent agenda.

It was moved by Councilmember Spilsbury, seconded by Councilmember Duff, that the consent agenda items be approved.

Upon tabulation of votes, it showed:

AYES – Freeman–Somers–Adams–Duff–Goforth–Heredia–Spilsbury NAYS – None ABSENT– None

Carried unanimously.

*2. Approval of minutes of previous meetings as written.

Minutes from the Study Sessions held on June 26, August 18, September 8, 2025, and from the Regular Council meeting on September 8, 2025.

3. Take action on the following liquor license applications:

*3-a. Gin's Smoke Shop

A tobacco shop is requesting a new Series 10 Beer & Wine Store License for Memushaj LLC, 1927 North Gilbert Road, Suite 2 - Vergjin Memushaj, agent. There is no existing license at this location. (**District 1**)

*3-b. Alessia's Italian Food-Alessia's Ristorante Italiano

A restaurant that serves lunch and dinner is requesting a new Series 12 Restaurant License for Alessia's Ristorante Italiano LLC, 5251 East Brown Road, Suite 105 -109 - Jeffrey Miller, agent. The existing Series 7 Beer and Wine bar license held by Alessia's Ristorante Italiano LLC will remain active at the location and stack with the Series 12 Restaurant License. (**District 5**)

3-c. Circle K Store # 9577

A convenience store is requesting a new Series 9 Liquor Store License for Circle K Stores Inc., 10744 East Elliot Road - Maria Danielle Burgess, agent. The existing Series 10 Beer & Wine Store License held by Circle K Stores Inc will revert to the State. (District 6) - DELETED

*3-d. 7-Eleven # 43049

A convenience store is requesting a new Series 10 Beer & Wine Store License for Kyra 1 Inc., 7226 South Ellsworth Road - Kevinder Singh Nijjar, agent. The existing license held by Western Refining Retail LLC will revert back to the State. (**District 6**)

Take action on the following contracts:

*4-a. Three-Year Term Contract with Two-Year Renewal Options for Fabrication and Installation of Parks and Facility Signs for the Parks, Recreation, and Community Facilities Department. (Citywide)

This purchase will provide a contractor to design, provide plans, fabricate, and install new or repair existing park identification (ID), rule, and building ID signs, and other signage in various parks and facilities throughout the City.

A committee representing the Arts and Culture, Library Services, and Parks, Recreation, and Community Facilities Departments and Procurement Services evaluated responses

and recommend awarding the contract to the highest scored proposal from Sierra Signs & Service, Inc. (a Mesa business) at \$541,500 annually, with an annual increase allowance of up to 5%, or the adjusted Producer Price Index.

*4-b. 11-Month Use of a Cooperative Term Contract with Renewal Options for a Distributed Antenna System (New) for the Mesa Gateway Airport as requested by the Department of Innovation and Technology Department. (Citywide)

Mesa Gateway Airport has experienced persistent radio City communication challenges in several areas for first responders using portable radios. To address these critical gaps, an Emergency Responder Communication Enhancement System (ERCES) will need to be installed. The system will ensure reliable communication across the airport, eliminating dead spots. These issues were identified based on a coverage study test.

The Department of Innovation and Technology and Procurement Services recommend authorizing the purchase using the State of Arizona cooperative contract with DiscountCell, Inc. at \$250,000 (Year 1) and \$30,000 annually for subsequent years for ongoing annual maintenance and repair costs.

'4-c. 5 Five-Year Term Contract for Industrial Plumbing Supplies for the Water Resources and Parks, Recreation, and Community Facilities Departments. (Citywide)

This contract will provide pipe, fittings, valves, backflow devices, and other related products and equipment. These items will be utilized at Water and Wastewater treatment facilities and by the Parks, Recreation and Community Facilities Department for the installation, repair, and replacement of their infrastructure.

Mesa partnered with AXIA Cooperative to lead the solicitation that created this contract. It will be available to over 30,000 public agencies nationally, including state and local governmental entities, public and private primary, secondary, and higher education entities, non-profit entities, and other agencies through AXIA's cooperative purchasing program. As part of the agreement, the City will receive 0.125% of the total 2% administrative fee collected from sales.

A committee representing the Water Resources Department and Procurement Services evaluated responses and recommend awarding the contract to the highest scored proposals from Best Plumbing Specialties, Inc., Core & Main LP, Sid Tool Co. Inc. dba MSC Industrial Supply Co. and Six Points Hardware at \$1,400,000 annually, with an annual increase allowance of up to 5%, or the adjusted Consumer Price Index.

5. Take action on the following resolutions:

- *5-a. Approving and authorizing the City Manager to enter into contracts for the purchase of firm natural gas supplies for the City of Mesa natural gas distribution system, for a period of up to five years and in the amounts up to the full requirements of the system, as well as an agreement for asset management. (Citywide) Resolution No. 12413
- *5-b. Approving and authorizing the City Manager to accept Proposition 202 funds from the Gila River Indian Community in the amount of \$569,675 and administer awarded funds. (Citywide) Resolution No. 12414
- *5-c. Authorizing the City Manager to enter into the Fourth Amendment of an Intergovernmental Agreement between City of Mesa and Arizona Board of Regents for

and on behalf of Arizona State University for Crime Analysis assistance. (Citywide) – Resolution No. 12415

*5-d. See: Items not on the Consent Agenda

- 6. Introduction of the following ordinances and setting October 6, 2025, as the date of the public hearing on these ordinances:
 - *6-a. ZON22-00890 "Gateway Park." 33.3± acres located at the northwest and southwest corners of East Ray Road and South Hawes Road. Rezone 15.6± acres from Limited Commercial with a Planned Area Development Overlay (LC-PAD) to Limited Commercial (LC), rezone 17.7± acres from LC-PAD to Light Industrial with a PAD overlay (LI-PAD) and Site Plan Review for an approximately 235,600± square foot industrial development and future commercial development. Mesa Airport Growth Properties, LLC, owner; Wendy Riddell, Berry Riddell, LLC, applicant. (District 6) Ordinance No. 5966

Staff Recommendation: Approval with conditions

<u>P&Z Board Recommendation</u>: Approval with conditions (Vote: 5-0)

- *6-b. Amending Sections 10-4-4 and 10-4-5 of the Mesa City Code to reduce the speed limit from 40 mph to 35 mph on Extension Road between Baseline Road and Southern Avenue, as recommended by the Transportation Advisory Board. (Districts 3 and 4) Ordinance No. 5967
- 7. Discuss, receive public comment, and take action on the zoning ordinance, and take action on the resolution, relating to the development 4062 E Main:
 - *7-a. ZON25-00366 "4062 E Main." 3.7± acres located approximately 1,600± feet west of the northwest corner of East Main Street and North Greenfield Road. Minor General Plan Amendment to change the Placetype from Urban Center with an Evolve Growth Strategy to Urban Residential with an Evolve Growth Strategy. Dolly Varden LLC, owner; Tim Boyle, Atmosphere Architects, applicant. (District 2) Resolution No. 12417

Staff Recommendation: Adoption

<u>P&Z Board Recommendation</u>: Adoption (Vote: 6-0)

*7-b. ZON25-00025 "4062 E Main." 7± acres located approximately 1,600± feet west of the northwest corner of East Main Street and North Greenfield Road. Rezone 3.3± acres from Multiple Residence-4 (RM-4) to Multiple Residence-4 with a Planned Area Development Overlay (RM-4-PAD) and rezone 3.7± acres from RM-4-PAD to RM-4 with a new PAD overlay (RM-4-PAD) and Site Plan Review for a 137-unit attached single-residence development. Dolly Varden LLC, owner; Tim Boyle, Atmosphere Architects, applicant. (District 2) – Ordinance No. 5964

Staff Recommendation: Approval with conditions

<u>P&Z Board Recommendation</u>: Approval with conditions (Vote: 6-0)

8. Discuss, receive public comment, and take action on the following ordinances:

*8-a. Proposed amendments to Chapters 14 and 86 of Title 11 of the Mesa City Code. The amendments include but are not limited to: repealing in its entirety Chapter 14 - Employment Opportunity District and adopting a new "Chapter 14 - Employment Opportunity District" and modifying Section 11-86-1: Purpose and Applicability pertaining to the purpose and applicability of use types. (Citywide) – Ordinance No. 5962

Staff Recommendation: Adoption

<u>P&Z Board Recommendation</u>: Adoption (Vote: 6-0)

*8-b. See: Items not on the Consent Agenda

*8-c. See: Items not on the Consent Agenda

Items not on the Consent Agenda

5-d. Providing a recommendation to the Maricopa County Board of Supervisors on the neighborhood's request for the City of Mesa's consent for the formation of the Mesa Vista Estates Irrigation Water Delivery District (IWDD), generally bounded by East Jensen Street on the north, East Mesa Vista Lane on the south, North Mesa Drive on the west, and North Dresden on the east. (**District 1**) – Resolution No. 12416

Robert Blincoe, a Mesa resident, stated that his neighborhood has benefited from the Salt River Project (SRP) installed irrigation system for several decades; however, the system is now aging, and repairs are becoming increasingly expensive. He explained that his neighborhood has submitted a proposal to form an irrigation district in order to pool resources and prepare for the growing costs of maintaining the system.

It was moved by Councilmember Heredia, seconded by Councilmember Adams, that Resolution No. 12416 be adopted.

Upon tabulation of votes, it showed:

AYES – Freeman–Somers–Adams–Duff–Goforth–Heredia–Spilsbury NAYS – None ABSENT– None

Carried unanimously.

*8-b. Proposed amendments to Chapter 36 of Title 11 of the Mesa City Code pertaining to legal nonconforming uses, lots/parcels, structures, and sites, and legal procedurally conforming uses and structures. The amendments repeal in its entirety Chapter 36 - Nonconforming Uses, Structures, and Lots and adopt a new "Chapter 36 - Nonconforming and Procedurally Conforming." (Citywide) – Ordinance No. 5963

Staff Recommendation: Adoption

<u>P&Z Board Recommendation</u>: Adoption (Vote: 7-0)

Vice Mayor Somers explained that additional information and clarification about the proposed Code amendments are needed prior to proceeding with approval of this ordinance. He requested that the item be continued to the October 6, 2025, Regular Council Meeting to allow additional time for further review.

It was moved by Councilmember Adams, seconded by Vice Mayor Somers, that this item be continued to a future date.

Upon tabulation of votes, it showed:

AYES – Freeman–Somers–Adams–Goforth–Heredia–Spilsbury NAYS – Duff ABSENT– None

Mayor Freeman declared the motion carried by majority vote.

*8-c. ZON25-00304 "Price Manor II." 6.5± acres located approximately 1,620± feet north of the northeast corner of East McKellips Road and North Center Street. Rezone from Single Residence-9 with a Planned Area Development overlay (RS-9-PAD) to Small Lot Single Residence 4.5 with a PAD overlay (RSL-4.5-PAD) for a 41-lot single residence development. Thomas Ahdoot, owner; Sean Lake, Pew & Lake PLC, applicant. (District 1) – Ordinance No. 5965

Staff Recommendation: Approval with conditions

P&Z Board Recommendation: Approval with conditions (Vote: 6-0)

Mario Diaz, a Mesa resident, voiced his support of the proposed development. He pointed out that his residence is two houses from the site that has become an eyesore for the neighborhood and felt that the proposed development would greatly improve the area. He acknowledged the concerns about added traffic, and he noted that development of the property is inevitable. He remarked that the zoning in the area is already a checkerboard mix and that integrating this site with Manor I and Manor II would provide continuity. He reiterated that nearby residents, including some who could not attend the meeting but testified at Planning and Zoning Board meeting, are supportive of the project and urged Council to approve the request and allow Brighton Homes to proceed.

Tim Brown, a Mesa resident, expressed his support for the project. He noted the property's history of failed developments and the current plan for 18 rental units, warning that without approval the property could face higher-density use. He highlighted Brighton Homes' responsiveness to neighbors and reduction of density in a prior. He stated the new development would provide a smooth neighborhood transition and help address local issues such as crime, abandoned vehicles, and safety concerns by bringing positive growth to the area.

Marilyn Crosby, a Mesa resident, explained concerns regarding the proposed development, emphasizing that opposition from Lehi residents stems from broken commitments and a lack of proper process, rather than opposition to development in general. She reported that the residents of the Lehi neighborhood have not been contacted for discussions despite attempts to engage and a rebuttal was submitted to the council report outlining substantiated concerns. She questioned claims that the development represents a reduction in density, noting traffic concerns.

Michelle McCroskey, a Mesa resident, explained that she is a Lehi community resident, serving on the Lehi Community Board and as a local 4-H leader. She expressed concerns regarding the proposed development, emphasizing that opposition is related to density, traffic, and the potential impact on the neighborhood's lifestyle. She requested a left-turn exit on Center Street

and discussed additional concerns about new residents potentially not valuing agricultural activities

Mayor Freeman announced that the following citizens submitted a comment card in support of ZON25-00304 Price Manor II but did not wish to speak.:

- Spencer Price, a Mesa resident
- Vonette Warren, a Mesa resident
- Tom Warren, a Mesa resident
- Shawn Brown, a Mesa resident
- Mike Kotwica, a Mesa resident

Sean Lake, Attorney for Pew & Lake, P.L.C., and representative for the applicant Brighton Homes, displayed a PowerPoint presentation. (See Attachment 1)

Mr. Lake provided an overview of the proposed development and displayed a site map to illustrate the location just outside the Lehi subarea, immediately north of the previously approved Price Manor I project. He noted that the property is bordered to the north by the Arizona Department of Transportation (ADOT) retention basin, which is not developable land; to the east by the Lehi Shadows subdivision and a mobile home park; and to the south by Price Manor I and an RV park zoned R4/RM4. He emphasized that the proposed project is intended to serve as a compatible transition between surrounding land uses. (See Pages 2 and 3 of Attachment 1)

Mr. Lake stated that the proposal for the site is RSL 4.5 zoning to allow for single-family detached homes on larger lots with homes of similar or slightly larger size than those in Price Manor I. He explained that, because Brighton Homes is developing both projects, the intent is to combine Price Manor I and Price Manor II into a single homeowner's association (HOA) to provide a larger membership base, making the HOA more sustainable over the long term by increasing both financial contributions and participation. He further noted that the Lehi Shadows subdivision lies directly to the east of the project site. He emphasized the efforts to directly engage neighbors, particularly those in Lehi Shadows, through door-to-door outreach and neighborhood meetings. (See Page 4 of Attachment 1)

Mr. Lake highlighted the General Plan for the area, noting that while the Lehi subarea is traditionally designated for low-density residential, the subject property is identified as traditional residential, consistent with the majority of the City of Mesa. He stated that this designation aligns with the proposed density since the surrounding zoning includes R3, R4, R1-6, and RS-9, and expressed that the project appropriately transitions in density to the adjacent ADOT retention basin to the north. He explained that prior attempts to develop the property under RS9 zoning were unsuccessful, and the proposed RSL 4.5 zoning would allow for construction of forsale homes that are more affordable than higher-end housing in the area, providing options for families wishing to remain in Mesa. (See Pages 5 through 8 of Attachment 1)

Mr. Lake addressed concerns raised during the neighborhood meeting, noting that the developer has agreed to include disclosures in the covenants, conditions, and restrictions (CC&Rs) and public report informing future homeowners of the proximity to agricultural and equestrian uses, which may result in flies and related conditions. He stated that restrictions will also be added to limit rental properties, including short-term rentals such as through Airbnb or VRBO. He highlighted additional commitments include installing a decomposed granite horse trail along the frontage of both Price Manor I and II, supporting the City in considering speed tables along Lehi Road, and working with the Transportation Department to restrict traffic access to Center Street as part of the final platting process. He added that the developer is also open to installing white fencing along Lehi Road. He emphasized that these measures reflect their willingness to work with the community. (See Page 9 of Attachment 1)

Mr. Lake stated that, aside from an eight-foot wall to be constructed around the SRP water facility and the inclusion of private streets within a gated community, no additional development standard modifications are proposed. He presented elevations of the planned homes, describing them as attractive, single-family residences with both front and back yards, designed to support family living. He emphasized that the project would provide much-needed for-sale housing inventory in Mesa and would serve as a positive addition to the community overall. (See Pages 10 and 11 of Attachment 1)

Responding to a question from Councilmember Spilsbury, Mr. Lake clarified the traffic circulation plan, noting that Price Manor I includes a crash gate to the east, directing all traffic to Center Street, and confirmed that the proposed project would include both ingress and egress from Center Street, along with an exit-only connection to the east. He explained that this design allows some traffic to flow east while ensuring primary access remains on Center Street and without this provision, all traffic would exit to Center Street and potentially divert through Lehi Road to reach other destinations.

Additional discussion ensued regarding the ingress and egress of the proposed development, including the primary access from Center Street and the exit-only connection to the east.

In response to a question from Councilmember Goforth, Mr. Lake confirmed that the public notice process was conducted in accordance with City Code requirements. He stated that the process was followed as directed by City staff and included submission of an affidavit verifying compliance.

Planning Director Mary Kopaskie-Brown discussed the public notice process and pointed out that in addition to mailing letters, the notices are published in the local newspaper, city website and via signage at the proposed development location. She confirmed that according to State Statute it is required to mail notification letters to all residents within a 500 feet radius, but in this case a 1,000 feet radius was used.

Councilmember Adams stated that he would not support the project and expressed his commitment to Lehi residents to protect the rural character of the community and to oppose higher density development, noting that no residents had requested higher density in the area. He referenced assurances made during the 2005 rezoning process related to step-down zoning and density considerations, stating that some residents feel commitments made at that time have not been upheld. He recognized the growing need for affordable, for-purchase housing, and stressed that this project, though attractive and well designed, is not appropriate for the Lehi area.

Councilmember Duff emphasized that while opposition exists, there is also community support, particularly from residents of the neighboring Lehi Shadows subdivision, whose voices should not be overlooked. She described the project as well designed, with attractive homes that provide an appropriate transition in zoning and a valuable range of housing choices not currently available in the Lehi area. She voiced support for the project, stating that it represents a good addition of family homes that would serve multi-generational needs and strengthen the overall community.

Councilmember Goforth confirmed that due to the issue with the citizen participation process she will not support moving forward with this project.

Additional discussion ensued regarding the public notice process and procedures.

Mayor Freeman reiterated that the Planning and Zoning Board had previously approved Price Manor II with a 70% vote, reflecting careful analysis and community input. He also highlighted the need for attainable housing, stating that current homes in the area are unaffordable for many families. He acknowledged traffic concerns, particularly along Center Street and Lehi Road, but noted that traffic studies show the roads can accommodate additional volume. He emphasized that equestrian users and agricultural activities would not be put at risk, and that most traffic leaving the area naturally exits south toward McKellips Road. He pointed out that measures such as restricting short-term rentals, implementing left-turn access onto Center Street, and preserving agricultural buffers help mitigate impacts. He expressed support for the project, citing its alignment with community housing needs, its compatibility with surrounding development, and its contribution to filling a gap in Mesa's middle-income housing stock.

It was moved by Councilmember Spilsbury, seconded by Councilmember Duff, that Ordinance No. 5965 be adopted.

Upon tabulation of votes, it showed:

AYES – Freeman–Somers–Duff–Heredia–Spilsbury NAYS – Adams–Goforth ABSENT– None

Mayor Freeman declared the motion carried by majority vote.

- 9. Discuss, receive public comment, and take action on the zoning ordinance, and take action on the resolution relating to the development Park North Multi-Family:
 - 9-a. ZON24-00708 "Park North Multi-Family." 5± acres located approximately 275 feet east of the northeast corner of South Power Road and East Guadalupe Road. Rezone from Limited Commercial with Planned Area Development Overlay (LC-PAD) to Limited Commercial with a new Planned Area Development Overlay (LC-PAD), Council Use Permit, and Site Plan Review for the development of a 120-unit multiple residence development. P & G Land Development LLC, owner; Chris Webb, Rose Law Group, applicant. (District 6) Ordinance No. 5940

Staff Recommendation: Approval with conditions

<u>P&Z Board Recommendation</u>: Approval with conditions (Vote: 4-0)

9-b. A resolution approving and authorizing the City Manager to enter into a Development Agreement (DA No. 24-00052) relating to a multiple residence development on 5 +/- acres of property located approximately 275 feet east of the northeast corner of South Power Road and East Guadalupe Road, requiring landscaping and construction of a pathway on parcels adjacent to the property, and notice to tenants of the possibility of noise and light intrusion from a nearby park. (**District 6**) – Resolution No. 12418

Vice Mayor Somers expressed his concerns about proceeding with the project as proposed and suggested that the item be continued to a future date to allow time for the developer to address the recommendations set forth during previous discussions.

Discussion ensued regarding the requested changes.

Regular Council Meeting September 22, 2025 Page 10

Chris Webb, Rose Law Group, acknowledged the desired changes to the proposed development and confirmed that his intent is to recommend a project that both the Council and community will support.

It was moved by Vice Mayor Somers, seconded by Councilmember Adams, that Ordinance No. 5940 and Resolution No. 12418 be continued to a future date determined.

Upon tabulation of votes, it showed:

AYES – Freeman–Somers–Adams–Duff–Goforth–Heredia–Spilsbury NAYS – None ABSENT– None

Carried unanimously.

- 10. Adopting the following Notice of Intention and setting December 1, 2025, as the date for the public hearing:
 - 10-a. Presentation and discussion on proposed utility rate adjustments.

Director of the Office of Management and Budget Brian Ritschel stated that the proposed utility rate adjustments reflect recent Audit, Finance & Enterprise Committee and Council discussions and recommendations related to the notice of intent and presented a PowerPoint presentation. (See Attachment 2)

Mr. Ritschel provided an overview of the City's financial principles and highlighted the key focus areas identified by the Audit, Finance & Enterprise Committee and Council, including equity between residential and non-residential rates, growth paying for growth, conservation of discretionary water use, and smoothing rate adjustments over time. (See Pages 2 through 4 of Attachment 2)

Mr. Ritschel summarized the City's financial forecast, noting concerns about negative net sources and uses and reserve fund percentages dropping below the 8% threshold. He reported that to address these issues and accelerate equity between residential and non-residential rates, the Audit, Finance & Enterprise Committee recommended restructuring debt by reducing principal repayment in the first 10 years from 35% to 30%; and in coordination with Water Resources, deferring \$180 million in water and wastewater system repairs and maintenance outside of the financial forecast. (See Pages 5 and 6 of Attachment 2)

Mr. Ritschel discussed additional budget adjustments, including increasing non-residential landscape rates from 15% to 20% and modifying residential tier rates allowing the equity target between residential and non-residential rates to be achieved sooner than initially planned. He highlighted the inequity of revenue versus consumption used by residential and non-residential users, emphasizing the need for rate adjustments to better align revenue with water consumption. (See Pages 7 and 8 of Attachment 2)

Mr. Ritschel presented an overview of the proposed utility rate adjustments outlined in the Notice of Intent. He reported that the proposed changes would result in an average 4.3% increase for residential water customers, which would decrease slightly to 4.2% if a capacity fee is adopted, representing an estimated monthly bill impact of approximately \$1.89 compared to \$1.84 with the fee. He reported the impact to the typical customer with water, wastewater, and solid waste services, proposing an overall monthly increase just under \$6. He reviewed the proposed increases to commercial landscape rates and wastewater rates for both residential

and commercial customers. He advised that maintaining equity between user groups and the adoption of a capacity fee would further lessen usage rate impacts and provide additional resources to advance \$180 million in deferred water resources projects, allowing repairs and maintenance to occur sooner. (See Pages 9 through 14 of Attachment 2)

Mr. Ritschel presented a rate comparison to other neighboring cities that showed Mesa remaining among the most affordable, ranking third from the bottom even with the proposed adjustments. He noted that Gilbert is in the final year of a three-year plan with 25% annual water increases, and Chandler is planning 15% increases for both water and wastewater along with a 6% increase in solid waste. (See Page 15 of Attachment 2)

Mr. Ritschel confirmed that the Notice of Intent establishes the maximum rates the City may adopt, with the option to approve lower rates, but if the Council wishes to set higher rates, a new Notice of Intent process would be required. He reviewed the next steps leading to new rates taking effect January 1. (See Page 16 of Attachment 2)

Responding to a question from Councilmember Spilsbury, Mr. Ritschel explained that although the proposed rate increase is approximately 4%, the impact appears larger when applied to the current higher base rates compared to prior years noting that this compounding effect is one reason Mesa has historically implemented smaller, incremental annual increases rather than larger, less frequent adjustments, a practice that has provided greater stability and is now being adopted by other Valley municipalities. He confirmed that the utility rate discussion process was initiated earlier this year than in the past to spur additional discussion and provide opportunities for the public to contact the Office of Management and Budget, Water Resources, or other utility departments with questions.

Mayor Freeman announced that the following citizens submitted a comment card in opposition to adopting a Notice of Intention and setting December 1, 2025, as the date for the public hearing to adopt the utility rate adjustments, but did not wish to speak:

- Lisa Peria, a Mesa resident
- Debbie Bressel, a Mesa resident
- Jeff Klusmann, a Mesa resident
- David L. Smith, a Mesa resident
- Patricia Book, a Mesa resident
 - Will Stasi, a Mesa resident

Rick Schwalbach, a Mesa resident, urged the Council to delay the Notice of Intent to adjust utility rates until clearer information is provided to the public. He emphasized the need for greater transparency, including a breakdown on utility bills showing how revenues fund City services versus general government purposes, clearer explanations of how the proposed \$40 million rate increase is allocated, and the use of median customer data to more accurately reflect the impact on residents. He requested that these measures be prioritized before moving forward.

Scott Webster, a Mesa resident, spoke in opposition to the proposed utility rate adjustments, citing concerns about the 30% transfer to the General Fund. He requested that utility bills provide a breakdown of charges and urged the Council to defer issuing the Notice of Intent until additional information can be shared with residents.

In response to a question from Councilmember Duff, Water Resources Department Director Chris Hassert reported that the City's water supply consists of approximately 55% Central Arizona Project (CAP) water, 30–40% SRP water, and the remaining portion from groundwater pumping. He noted that these proportions have remained consistent over the past several years.

Councilmember Spilsbury remarked that she was unaware of the utility fund transfer until running for Council. She emphasized that the transfer is not hidden from residents and highlighted Mesa's unique position as one of the largest U.S. cities without a primary property tax, which contributes to differences in funding structures. She agreed that more public education on utility charges is needed. She praised the City's transparency and existing checks and balances and emphasized that the discussion on utility rates is in its early stages, with formal introduction scheduled for November 17 and the vote following two weeks later, making delays unnecessary.

Vice Mayor Somers verified that the 30% utility fund transfer, established in the 1940s as an alternative to a primary property tax, is a unique approach to funding City operations and that while some residents are uncomfortable with the transfer, it is seen as preferable to a primary property tax. He highlighted the importance of maintaining a healthy utility fund to ensure water and wastewater services, explaining how projects such as the Central Reuse Pipeline and bond-funded infrastructure improvements help manage costs and provide long-term savings. He emphasized that bond issuance is staggered to avoid sudden spikes in rates and noted that incremental adjustments make rate increases more manageable. He encouraged residents to review budget forecasts and utility information on the City's website for greater transparency and understanding of rate projections.

Councilmember Adams acknowledged the complexity of the utility rate process but expressed confidence that transparency is available for those who seek it. He noted that budget projections are beginning to improve, which is encouraging, and emphasized minimizing impacts on residents. He stated that the 60-day period before the November discussion provides ample time for questions, review, and deliberation, and saw no benefit to delaying the start of the conversation, as postponement would only defer necessary debate and resolution.

Councilmember Goforth expressed support for proceeding with the utility rate discussion without delay, emphasizing that this stage initiates the conversation with residents and allows for education on the City's investments in securing Mesa's water and energy future. She noted that rate adjustments have historically remained below cost increases and consumer price index (CPI), enabling steady, manageable increases rather than sudden spikes, and stressed the importance of informing residents about the rationale and necessity of these investments.

Mayor Freeman reflected on past experiences with delayed water rate increases, noting that skipping increases seven years ago led to a 7.5% spike the following year, highlighting the importance of incremental adjustments. He explained that the City maintains a 95-year water lease with the Gila River Indian Community to secure priority water and emphasized the high costs and limited supply from the Colorado River. He addressed the 30% utility fund transfer and clarified that these funds support public safety and infrastructure reinvestment. He encouraged residents to meet with Council or staff for detailed financial information and reminded the public that the utility rate ordinances will be introduced on November 17, with final Council action scheduled for December 1.

10-b. Adoption of Notice of Intention to adjust utility rates.

It was moved by Councilmember Spilsbury, seconded by Councilmember Heredia, that the Notice of Intention be adopted and December 1, 2025, set as the date for the public hearing.

Upon tabulation of votes, it showed:

AYES – Freeman–Somers–Adams–Duff–Goforth–Heredia–Spilsbury NAYS – None

ABSENT - None

Carried unanimously.

- 11. Adopting the following Notice of Intention and setting December 1, 2025, as the date for the public hearing:
 - 11-a. Presentation and discussion on proposed water and wastewater capacity fees.

Water Resources Department Director Chris Hassert provided an overview of the proposal to establish a water and wastewater capacity fee within the utilities plan and displayed a PowerPoint presentation. (See Attachment 3)

Mr. Hassert explained that capacity fees are designed to recover growth-related costs of construction and are assessed as a one-time charge for new or upsized connections to the water and/or wastewater system. He pointed out that the COM currently lacks a mechanism to recover costs for the infrastructure needed to support growth, and adopting a capacity fee would alleviate the pressure currently placed on the existing rate payers. He reported that adjustments to the Capital Improvement Project (CIP) schedule have been required as some projects were advanced earlier than planned to meet growth demands, creating funding constraints and delaying other critical infrastructure projects. He pointed out that the proposed capacity fees would help address these challenges by funding lifecycle, rehabilitation, and growth-related costs. (See Pages 2 and 3 of Attachment 3)

Mr. Hassert presented a map of the COM water masterplan and highlighted the largest concentrations of vacant land which are primarily zoned commercial and industrial, noting that if developed, upgraded infrastructure would be necessary to support growth and avoid pressure on the aging system. (See Page 4 of Attachment 3)

Mr. Hassert reported that the proposed capacity fees are based on the American Water Works Association (AWWA) Manual of Water Supply Practices M1, which establishes principles for water rates, fees, and charges. He reviewed the proposed capacity fee calculations and supplied the projected capacity costs for water and wastewater capacity projects using the Signal Butte expansion project budget as an example. He compared the proposed fee to neighboring cities based on a ¾ inch meter. He explained that the legislation previously allowing collection of impact fees on new development is no longer in effect due to recent updates, noting the COM impact fee program ended in 2023. (See Pages 5, 8, 12 and 13 of Attachment 3)

Mayor Freeman thanked staff for the presentation.

Mayor Freeman announced that the following citizens submitted a comment card in opposition to adopting the Notice of Intention and setting December 1, 2025, as the date for the public hearing to establish water and wastewater capacity fees, but did not wish to speak.

Elaine Klusmann, a Mesa resident
 Jeff Klusmann, a Mesa resident

James Ashley, representing the Homebuilders Association of Central Arizona, spoke in opposition to the proposed water and wastewater fees, citing concerns with the process rather than the need for capacity. He emphasized that Mesa homebuilders were not notified of the proposal prior to the September 11 Study Session, unlike outreach practices in other jurisdictions. He confirmed that a stakeholder meeting with City staff has been scheduled to address concerns, noting that the lack of opportunity to fully review fee calculations removes the

certainty and protections provided under the development impact fee statute A.R.S. §9-463.05. He concluded by reaffirming that their opposition is procedural and expressed hope for a positive resolution through ongoing discussions with staff.

David L. Smith, a Mesa resident, spoke in support of the proposed water and wastewater capacity fees, emphasizing that new developments should fund infrastructure rather than existing residents. He noted that supplying Mesa's remaining water and wastewater capacity would cost approximately \$400 million. He highlighted that the proposed fees are consistent with state law and comparable to neighboring cities. He cautioned that without these fees, current residents' utility bills would rise over time and urged the Council to approve the Notice of Intent and proceed with adopting the capacity fees.

Scott Webster, a Mesa resident, spoke in support of the proposed capacity fees, emphasizing that while such measures can be unpopular, they are necessary to ensure new developments bear the cost of infrastructure. He pointed out that without proper fees, existing residents, particularly those in older or smaller homes, often end up subsidizing infrastructure for new, higher-end developments. He encouraged the Council to consider all aspects of development, including water, power, and roads in applying these fees.

City Attorney Jim Smith confirmed that, under state law, the proposed capacity fees are limited to funding water and wastewater projects only.

In response to Mr. Ashley's comments, City Manager Scott Butler emphasized the City's commitment to collaborating with private sector stakeholders while following state statutes governing impact and capacity fees. He highlighted that growth should pay for growth, noting that current ratepayers are currently subsidizing new development, which is unsustainable. He confirmed that stakeholder meetings and additional discussions will continue over the next 60 days, aiming to reach a reasonable solution that balances all interests before the fees are adopted in December.

Vice Mayor Somers emphasized that growth should pay for growth, noting that without the proposed capacity fees, residential utility bills would increase by approximately 0.5% and commercial bills by 1% to cover the cost of new development. He acknowledged that the old system is no longer viable and stressed the need to adopt a new system to ensure that growth funds its own infrastructure. He welcomed the 60-day period for stakeholder meetings and one-on-one discussions and expressed support for ongoing conversations to implement the fees while protecting current ratepayers.

Councilmember Goforth reiterated that the Notice of Intent begins the process of gathering feedback and initiating discussions on the proposed capacity fees. She emphasized that growth should pay for growth, highlighting that existing ratepayers already cover the costs of maintaining current infrastructure, while new development should fund any additional capacity and associated system demands. She expressed confidence that ongoing discussions and public input will help refine the approach while preserving the overall concept.

Councilmember Adams stated that the discussion on the proposed capacity fees is timely and appropriate. He highlighted the importance of identifying ways to lessen the financial impact on residential ratepayers and expressed support for the process as a means to achieve this. He mentioned that the 60-day period provides ample opportunity for thorough discussions with staff and stakeholders.

11-b. Adoption of Notice of Intention to establish water and wastewater capacity fees.

Regular Council Meeting September 22, 2025 Page 15

It was moved by Vice Mayor Somers, seconded by Councilmember Goforth, that the Notice of Intention to establish water and wastewater capacity fees be adopted setting December 1, 2025, as the date for the public hearing.

Upon tabulation of votes, it showed:

AYES – Freeman–Somers–Adams–Duff–Goforth–Heredia–Spilsbury NAYS – None ABSENT–None

Carried unanimously.

12. Items from citizens present.

Betsie Soderquist, a Mesa resident, stated her opposition to the 287(g) Cooperation Agreement with the U.S. Immigration and Customs Enforcement (ICE) and raised concerns about potential government overreach.

Alyssa Owens, a Mesa resident, expressed her opposition to the 287(g) Cooperation Agreement with ICE.

Adela Vargas, a Mesa resident, spoke in opposition to the 287(g) Cooperation Agreement with ICE and urged the Council to cancel the agreement.

Mayor Freeman announced that 113 comment cards were submitted in opposition to the 287(g) Cooperation Agreement with ICE.

13. Adjournment.

Without objection, the Regular Council Meeting adjourned at 9:00 p.m.

SEAL

ATTEST:

HOLLY MOSELEY, CITY CLERK

MARK FREEMAN MAYOR

I hereby certify that the foregoing minutes are a true and correct copy of the minutes of the Regular Council Meeting of the City Council of Mesa, Arizona, held on the 22nd day of September 2025. I further certify that the meeting was duly called and held and that a quorum was present.

Other Rates

Mesa Gateway Airport Fire Protection Demand Charge

- Rate updated for the first time in ten years last year (+30%).
- Another adjustment recommended for this year (+30%).
- Part of a three-year plan to attain cost recovery.

Crismon Road Water Hauling Station – Bulk Water Sales

- Moving to credit card-based point of sale system.
- Already some of the most expensive water the City sells.
- Recommending a +12% increase as a further deterrent to widespread use.

Water Hydrant Meter Service

Recommending a +12% increase.

Capacity Fee

Chris Hassert, Water Resources Director Jesse Heywood, Water Resources Assistant Director

September 11, 2025

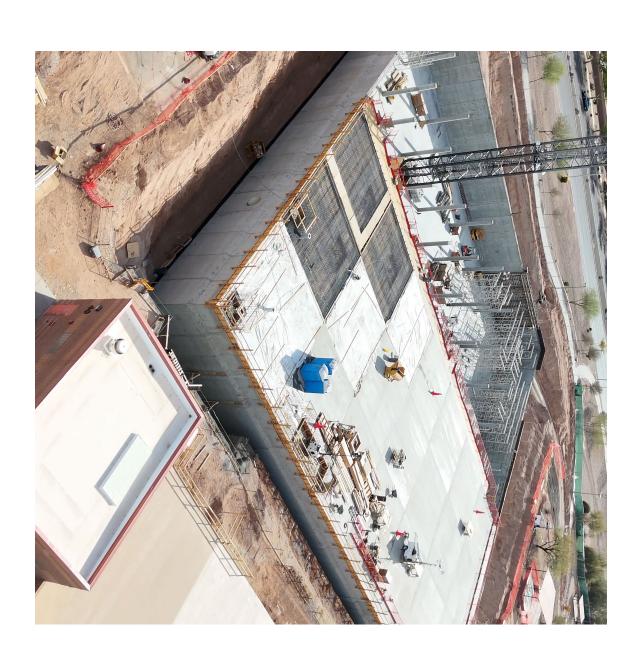

Regular Council Meeting September 22, 2025 Attachment 3 Page 2 of 23

Overview

What is a Capacity Fee How is the Capacity Fee

calculated

What type of projects will the fee fund

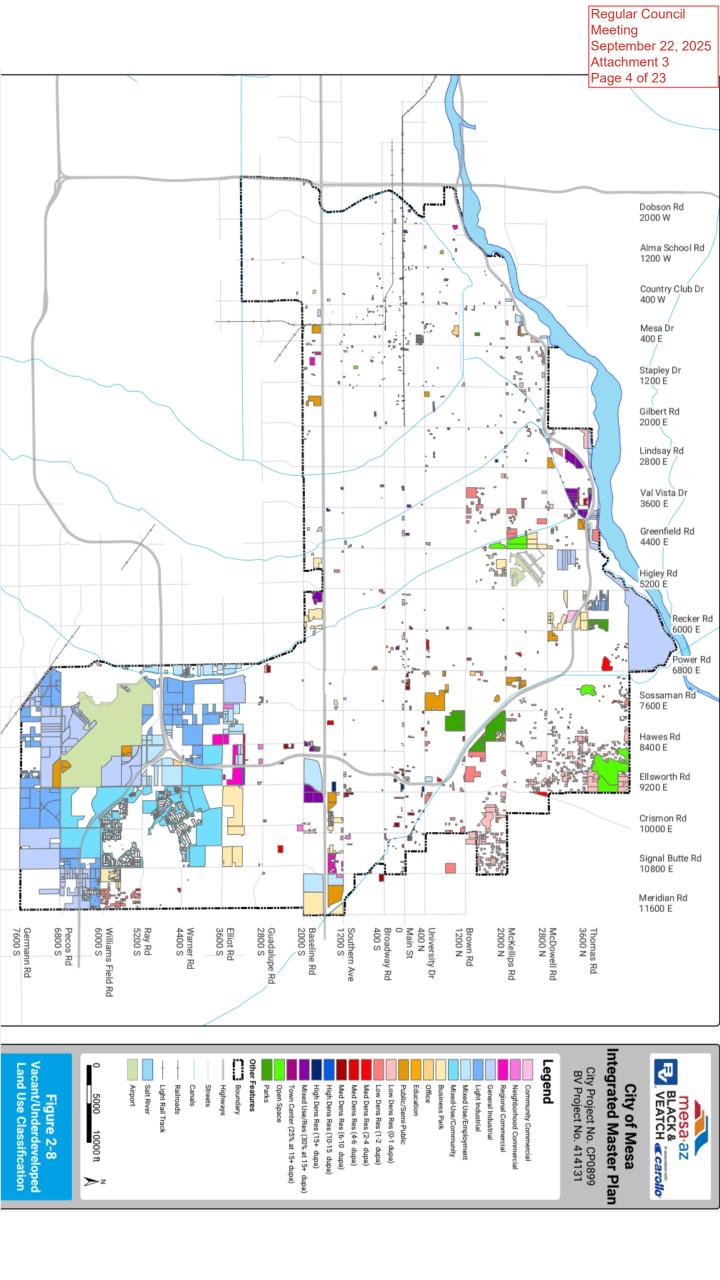

Regular Council Meeting September 22, 2025

Attachnic... Page 3 of 23 Mhat is a Capacity

Fee

- Capacity fees are a one-time charge authorized by A.R.S. § 9-511.01 water and/or wastewater system as for a new or upsized connection to the
- growth-related portion of the cost of wastewater system capacity constructing any additional water and The fee is designed to recover the
- Fees will be directed to the "Utility Capacity Fee Fund"

Regular Council Meeting

Meeting September 2. Attachment 3 Page 5 of 23 HOW IS THE Capacity - Capacity Fee calculated

- calculate the capacity fees developing the methodology to The City utilized AWWA's Principles of Manual of Water Supply Practices M1 in Water Rates, Fees, and Charges
- method was chosen The *incremental* cost or marginal cost
- added capacity in the next 10 years The recently completed 2025 Integrated Master Plan identified projects that

Regular Council Meeting September 22, 2025 Attachment 3 Page 14 of 23

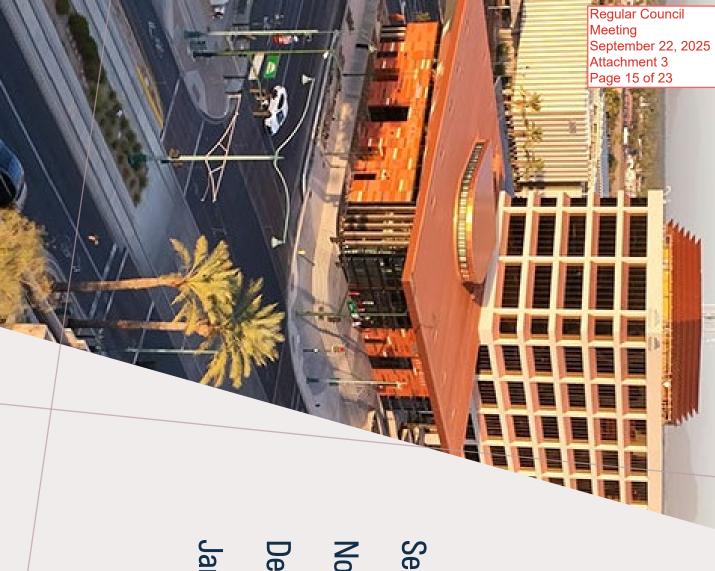

Conclusions

- Proposed Capacity Fee eases financial burden on all rate payers
- Protects existing customers from the cost of new growth
 Frees up capital funds to spend

on needed life cycle

replacement projects

NEXT STEPS

September 22 - City Council Action on Notice of Intent

November 17 - Introduction of Capacity Fee Ordinance

January 1 December 1

- City Council Action on Capacity Fee

- Effective Date of Capacity Fee
